

Amendments:

In the Claims:

Claim 1. Cancelled.

Claim 2. Cancelled.

Claim 3. Cancelled.

Claim 4. (Currently amended) A resilient wiper element for wiping debris from the internal surface of a string of wet pipe without sealing against said pipe, comprising a flexible sheet having finite thickness, a bore extending through said flexible sheet and a rigid member in proximity to said bore, ~~The resilient wiper element of claim 3,~~ wherein said wiper element is notched to enable folding or bending of said wiper element within said pipe.

Claim 5. (Original) The resilient wiper element of claim 4, wherein said wiper element is constructed of at least one elastomer.

Claim 6. (Currently amended) The resilient wiper element of claim 5, wherein said rigid member comprises a washer ~~is integrally molded into~~ in said wiper element around said bore.

Claim 7. (New) The resilient wiper element of Claim 4, wherein said wiper element is substantially circular.
